TWO WONDERFUL BUSH ROSES

Radiance and Mrs. George Sawyer

See Colored Illustration on Front and Back Cover Pages

Radiance

In this variety we have an absolutely distinct and magnificent Rose of the highest excellence. It is a strong, vigorous grower, of free and erect branching habit, with very large and massive dark green foliage. Flowers very large and massive, of a lovely glowing pink color, distinctly shaded to white at base of petals. The outer petals are shell shaped and extremely large, giving a half opened flower of great spread. This is a fine American pedigreed sort. A fine garden Rose. Price, one year old plants, 20 cents each; two year old plants, 50 cents each.

Mrs. George Sawyer

It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant and in a class by itself as to color. It has an extraordinary deep, long, very pointed flower, probably the most perfect shaped and graceful form of any Rose grown; has no equal among bedding or garden Roses. A variety that should have a place in every garden. Price, one year old plants, 30 cents each; two year old plants, 75 cents each.

Giant Spencer Sweet Peas

Unusual Size, Wavy, Fluted Form, Dainty and Harmonious Coloring, Vigorous, Strong Growth, Long Stems, Fragrant, and of Lasting Substance.

Vestal's Special Blend

This superb mixture is our special pride. During the several years we have sold it, it has been our constant aim to improve and perfect it. The different kinds and sorts contained in this mixture are grown separately, so that we have an opportunity to choose only the largest and most beautiful varieties. These we mix ourselves in proper proportions for the most brilliant effect. It embraces the finest American and Eckford varieties, as well as the latest novelties, and will produce abundance of giant flowers of beautiful colors. Some are edged, mottled, blended, flaked and striped. Without exception, this is the very finest mixture it is possible to make. Price, 20 cents per packet; 50 cents per oz.

No flowers are easier to grow or more certain to give satisfaction. The culture is very simple—plant the seed 3 or 4 inches deep, in the most convenient place you happen to have, very early in the spring—just as early as possible—February, March, April or May, according to the season and locality. Keep the ground loose and mellow, give the young plants good support to climb on—wire netting, twine or brush. Keep the flowers picked off clean every day as fast as they open (this is very important), and they will bloom abundantly for weeks.

OUR GRAND PRIZE MIXTURE Gladiolus

A Superior Mixture of Gorgeous Gladioli.

A splendid well-balanced mixture containing a marvelous variety of bright colors, many charmingly blended, striped and blotched. For brilliancy these Gladioli cannot be surpassed. Those who wish an ample supply to cut for bouquets should plant liberally of these at intervals of two weeks. All first size bulbs, sure to bloom. Price, 6 for 25 cents; 15 for 50 cents; 40 for \$1.00; 100 for \$2.00.

Cut Flower Department

This department in our business is made a specialty. With facilities for growing a constant supply of flowers at all seasons of the year, we are able to execute orders at the shortest notice.

As prices of Cut Flowers vary according to the season of the year and the scarcity of flowers, it is next to impossible to give any fixed prices here, but we shall always endeavor to fill orders at as low rates as we can afford at the season you order.

When ordering please mention the time articles must reach you to be available. If time does not allow to order by mail, telegraph us.

We cannot be responsible for delayed trains in transit.

Rush orders by mail should have a special delivery stamp attached to insure prompt delivery to us. When time is limited telephone to us, stating time flowers must reach you, and we will give it prompt attention; but it is to your advantage to give reasonable time when possible.

All designs and flowers sent by express, the only safe way. We express safely at all seasons.

In ordering designs, always state the amount you wish to pay, and we will always send as large and handsome pieces as we can for the amount. If undecided what to order, we will make the selection for you.

Always give full directions. Prices, net cash.

Choice Collection for Veranda Boxes

Window gardens have always been popular, but within the living room the plants contend against conditions that are very unfavorable. The gases thrown off from burning kerosene and coal stoves are very injurious to plant growth. The interior window garden adds much to the cheerfulness of the room, but a window or veranda box just outside of the window adds almost as much to the interior effect without taking up the room, and adds very materially to the attractiveness of the exterior. The plants grow much better and bloom profusely with less care.

The box may be made of a great variety of materials, and quite attractive, but since it is only a receptacle for the soil an ordinary box made of pine will answer as well as an expensive one, as the sides will soon be covered up with the drooping and creeping plants. In length the box should equal the width of the window, and eight to twelve inches wide by four to six inches deep, with numerous holes in the bottom for drainage.

NOTE.—We have selected the following plants because they are the most satisfactory for the purpose. This collection contains enough plants for a three foot box, or an ordinary window. We will supply this Veranda Box Collection of twelve plants for 75 cents or we will supply two collections, enough for a six foot box for a large or twin window, for \$1.25.

ONE RUSSELLIA. Fine grass like foliage and small flowers.
ONE PARLOR IVY. Climbing habit; yellow flowers.

Window Box of S. A. Nutt Geraniums and Ives.

ONE ACALYPHA. Beautiful ornamental foliage.
ONE NEPETA VARIEGATA. Trailing growth; leaves green and white.
ONE PILEA. Fine moss like foliage; small flowers.
TWO GERANIUMS. The best scarlet varieties.
ONE VINCA VARIEGATA. Foliage green, margined white.
ONE WEEPING LANTANA. A wonderfully profuse bloomer.
ONE TRADESCANTIA. Grand drooping plants; green and bronze foliage.
TWO VERBENAS. Always in bloom.

Hanging Basket Collection

The basket may vary much in size and form; and in kind almost as much as the plants. Avoid a small vessel, and give good drainage. Those most extensively used, perhaps, are made of strong wire, woven into hemispherical or other forms, and lined with moss before filling and planting. The most satisfactory article we have ever used is an ordinary nail keg, having both heads in; cut off two or three staves near the end and remove; bore several one and one-half inch holes in the ends and sides in which plants can be inserted when filling and planting.

We have selected the following varieties as being the most satisfactory for the purpose mentioned. They are plants of widely different growth; being of upright, climbing and trailing habits. We know they will give satisfaction. Should our stock of any of them become exhausted, we reserve the right to send you others of equal value. **Price, 50 cents.**

ASPARAGUS SPRENGERII. Trailing habit.
CUPHEA. Pretty; dwarf habit; brilliant flower.
GERMAN IVY. Rapid grower, drooping habit. Flowers yellow in clusters.
RUSSELLIA. Fine slender drooping foliage.
NEPETA VARIEGATA. Foliage green, margined white.

MANETTIA VINE. Prettiest little climber.
SWORD FERN. Fine house basket plant.
WANDERING JEW. Drooping; foliage green and bronze.

How to Plant.—The soil should be such as you can find in any good garden, with a liberal supply of thoroughly rotted manure added. A common mistake in arranging the plants in a hanging basket is that of crowding, and filling too full. Fewer plants will appear more graceful, and growth will be more vigorous if not crowded. Exercise care in watering. After the roots have become well established and the plants have made rapid growth, an occasional watering with weak liquid manure will be found beneficial.

Parlor Foliage Collection

In this collection we give you a strong plant of the best of all ferns, "Whitmanii," also a plant of the new fern "Scholtzi," together with a Boston Fern and a plant of the Lace Fern, all for 50 cents, postpaid.

Information for Purchasers

We are leading growers of the newest and choicest Roses and other beautiful flowers. Our new Guide is our Store, where our patrons can shop at convenience. Prices are plainly marked, and everything suitable to go by mail is delivered free at the prices named. We give close personal attention to every part of our business, and are always glad to accommodate and assist our customers in every way we can.

WHEN YOU ORDER, please use the printed envelope and order sheet enclosed. Others will be sent you upon request. Always write your name the same, adding the postoffice, county and state on each and every communication you send us. If you have occasion to write us, please use a separate sheet.

LOST OR UNSIGNED ORDERS. Letters are often sent us unsigned and letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order, stating when and in what form payment was sent and sign the name and address the same as in the first order, so that it may have immediate attention.

HOW TO SEND MONEY. Our terms are cash. To avoid delay please send money with order. Money may be sent at our risk if forwarded by P. O. Money Order, Express Money Order, Bank Draft or in Registered Letter, and cost of same may be deducted from amount forwarded; but we cannot be responsible for any order or money that fails to reach us when not sent as above directed. CASH should be sent by Registered Letter, but coins should be carefully wrapped and care taken to seal letter securely. New postage stamps accepted for small amounts.

AGENTS. We employ no agents and are only responsible for orders sent direct to us.

OUR GUARANTEE. We guarantee all our plants to reach their destination in a good growing condition.

OUR RESPONSIBILITY. As stated above, we guarantee all goods to reach their destination in a live condition, but when we have done this our responsibility ceases, because we know that if they receive proper treatment they will grow nicely. Many plants die from careless treatment and neglect; in such cases we cannot and should not be expected to replace them.

ERRORS. As an evidence of our human failings we sometimes make mistakes. Careful as we are to protect ourselves and our patrons, preach as much as we will to our employees, yet they occur; when they do, notify us at once; we will correct them promptly.

SHOULD YOU RECEIVE two or more Catalogues alike, which sometimes occurs, have the kindness to present such as you do not need to others who will likely want plants. By doing so confer a double favor. We will also feel thankful for your recommendations of our establishment to your friends wanting plants. A copy of our Catalogue will be furnished to friends requiring plants on receipt of their address.

WHEN SENDING CLUB ORDERS please give full name and address of each member of the club, so

that we may enter their names on our books and forward them our Catalogues as issued.

BETTER THAN WE PROMISE. We always do better than we promise in the way of extra plants, so when the order will at all afford it we add to it some plant or plants gratis, often choice new kinds; several of the Roses now so eagerly sought after were first introduced to our customers in this way—presented with their order.

A GUARANTEE THAT MEANS SOMETHING. Do not be confused with senseless guarantees which mean nothing. The best guarantee is that given by a reputable house to deliver all goods to any post-office or express office in the United States or Canada in first-class growing condition, and failing therein, to replace them immediately. This is our Guarantee. Furthermore, we guarantee that when goods are received, if they are not thoroughly satisfactory, we will make them so or refund your money. When plants reach you in good condition and are planted with ordinary care there is no difficulty in guaranteeing them to bloom at the time nature intended they should, which is sometimes termed "a seasonable time." It would be quite as sensible if we were to guarantee that they should bloom at any other time but at the time nature intended that they should, the so-called seasonable time. We are sure that a guarantee that states that plants are guaranteed to bloom under the above conditions, provided they are not winter killed or die from any other cause, will be taken for what it is worth. Vestal's plants are guaranteed to reach you in first-class condition, and if you give them any kind of care, we guarantee them to grow and bloom.

ORDERS BY EXPRESS. Two year old roses, large size shrubbery, fruit trees, etc., are too large to mail and must be sent by express. We recommend that customers instruct us to ship smaller size plants also by express, when in our judgment it is best to do so. We can send larger plants this way and can leave most of the earth on roots, which is of course much better for our customers. Express charges must be paid by the purchaser, unless otherwise agreed. But we are careful to pack as light as safety of the plants will permit and add as many extras as we can afford to help cover charges, and since the expressage on plants, bulbs, etc., is now twenty per cent less than regular merchandise rates, the cost of sending goods in this way, even to distant points, is quite reasonable.

PARCEL POST

Heretofore the limit of weight of a package of mailable plants, bulbs and seeds has been four pounds. The newly established system of Parcel Post simply gives the added privilege of transferring through the mails packages of mailable plants, bulbs, seeds, etc., of weight up to twenty pounds. Do not construe this to mean, however, that the increased size of package allows carrying express size plants. It only permits of sending you larger orders of mailable plants.

The firm VESTAL & SON has no connection whatever with any other concern in Little Rock or elsewhere, but is the old original firm established on this present site by its founder, JOSEPH W. VESTAL in 1880. Letters addressed to VESTAL, LITTLE ROCK, ARKANSAS, will reach us.

Southern States Evergreen Lawn Grass Seed For the convenience of those of our customers who object to the Bermuda Grass, we have decided to offer them this year **Southern States Evergreen Lawn Grass Mixture**. A mixture of the best grasses that exist for general planting in the Southern States. Most lawn grass mixtures are of little use in the South, as they burn out in dry summers. For those who have shady yards or can give the grass an abundance of water during a prolonged dry spell, we believe the Southern States Lawn Grass Mixture answers every purpose. Sow as follows: 1 lb. for 350 square ft.; 5 lbs. for 1750 square ft.; 10 lbs. for 3500 square ft.; 25 lbs. for one-fourth acre. Price, 25 cents per quart. If sent by mail, 35 cents per quart.

The wise purchaser in selecting what he wishes to buy considers the price of an article **ONLY AS A GUIDE**. It is Quality offered, which he needs most to know especially when buying Roses. Roses bought at bargain counters often prove to be very expensive before you are done with them. The question which mainly concerns a wise buyer of Roses is not "What do these Roses cost me?" but "What will these Roses do for me?" Here-
 tofore anyone who bought Roses had to get them on risk. It was a gamble—sometimes they bloomed and some-
 times not.

How to Grow Roses

Roses Need All the Sunshine

they can get, and always do best when planted in an open, sunny situation. They do not like shade or damp, wet ground, and should never be set where they will be deprived of proper nourishment by the roots of trees or older and stronger plants, which sometimes extend long distances and completely exhaust the soil for anything else. This does not mean that a block of trees or shrubbery may not be utilized sometimes as a convenient shelter or windbreak for the Rose bed, only do not set them too near, and be sure their roots do not rub the Roses. A somewhat sheltered position, when free from the above objections, is an ideal place for the Rose bed.

Preparation of the Beds

Roses will grow and give good returns in any fertile, well-drained ground; but it is worth while to use some care in the preparation of the beds, as the general health of the plants, quantity and quality of bloom usually more than repays the extra care expended on this detail. The best soil for Roses is sod from an old pasture and well-rotted cow manure. Dig out the bed to a depth of two feet or more, and, if drainage is imperfect, it must be provided for. Fill in with a mixture of soil and manure as above. It is best to make the beds some time in advance of planting, to allow time for settling. After the soil is settled, it should be about an inch below the level of the adjacent surface; make the beds not over three and a half feet wide, which enables you to pick the blooms without stepping on the bed.

Planting

The proper time for planting in the various sections of the country largely depends, first, upon the location, and second, upon the character of the plant. In the warm climate of the Pacific coast, southern and southwestern states, in fact all sections where frosts are infrequent and the winters mild, pot-grown as well as dormant Roses may be planted in the late fall, as well as in the early spring. In the southern states fall planting of both these classes of Roses is considered desirable, but, if the conditions are such that it cannot be accomplished, then in the early spring months they may be set out with entire safety.

As to where the preference lies between plants that

are pot-grown under glass, and dormant, field-grown plants, it is not easy to discriminate. Our own experience has been that in the southern and southwestern states, as well as on the Pacific coast, the planting of the one-year-old Roses during the months of February, March and April, according to the location, may be accomplished with splendid satisfaction.

Winter Protection

If winter protection is necessary in your section, a good plan is to bend the branches, or the whole plant, down and fasten them securely within two or three inches of the ground by tying them to stakes driven in for that purpose, then spread dry leaves or garden litter over them to a depth of say six inches, but do not cover too thickly, or until the plants are well matured and leaves fallen off, and uncover gradually in the spring when danger of severe freezing is over.

Mulching

By mulching is meant covering the ground round the plant with a more or less thick coating of stable manure, leaves, sods, newly mown grass from the lawn, or other similar material. This may be done in the winter to keep from freezing too deeply, or in the summer to keep the weeds down, and in an excellent way to apply manure, as the strength will soak gradually down to the roots in the best possible way to nourish the plants.

Pleasure of Rose Growing

Rose growing (watching the growth, development and habits of the different varieties) is a most fascinating and interesting study. Start a small Rose garden by our method, and with our vigorous bushes you will soon insist on having a larger one. The work is so healthful and pleasing that it is rapidly becoming as much a "fad" as is amateur photography. Think of the joy of having beautiful Roses blossoming at your very door, sending their fragrance to meet you as you cross the threshold, and yielding enough flowers to fill every room in your house with their perfume. The first bouquet cut from the bushes in your own yard will give you more pleasure than any ten dollars worth of Roses you ever had from a florist.

William Shean

A fine grower, throwing up long, stiff canes, crowned with large pointed flowers of purest Killarney pink, full, free, and a perpetual bloomer. Immense size, perfect form and substance. Altogether a glorious Rose. Price, one year plants, 20 cents each; two year plants, 50 cents each.

Cherry Ripe

Beautiful, Fragrant, Hardy.

One of the brightest vivid crimson scarlet Roses in existence. Of free branching habit of growth; very vigorous and healthy. Every shoot produces a large, double, well-formed flower, which, combined with its fragrance and hardness, makes this essentially one of the greatest red Roses for outdoor planting. The more we grow this Rose the better we like it. Price, 15 cents each; two year old plants, 40 cents each.

Rhea Reid

A Magnificent New Crimson Garden Rose

"As large as American Beauty, as double as La France and as red as Richmond," is the enthusiastic way in which the originator describes this beautiful new Hybrid Tea Bush Rose. The color is vivid scarlet-crimson, and the flowers are marvels of beauty, large, bold, and of splendid substance. It has a strong, disease-resisting constitution, makes a rapid growth, and throws up a profusion of canes from the roots and is always blooming. Our advice is to send for it and plant liberally of it. Price, one year old plants, 15 cents each; two year old plants, 35 cents each.

The Famous Soupert Roses

Always Blooming

These famous Roses will give absolute satisfaction to every purchaser. They bloom the first year and will be in bloom every year from early April until severe freezing weather. More than once we have seen them bloom in open ground after a severe snow storm. There are no Roses like them; certainly none better. If you try them, take our word for it, you will not be disappointed.

Clotilde Soupert

Known the world over as one of the very best of all bedding Roses. A strong, dwarf grower and a truly wonderful bloomer, producing clusters after clusters of the finest formed flowers. Full and double, and deliciously sweet. The color effect is beautiful—ivory-white shading towards the center to silvery rose.

To possess this beautiful rose is a pleasure indeed. Surprising results are attained, and no garden is complete without it.

Yellow Soupert (Mosella). Flowers are very double, and of the same camellia-like form as Clothilde Soupert, and are produced in immense clusters; buds exceedingly dainty. A strong, upright, bushy grower. Color white, on beautiful light yellow ground; center chrome-yellow.

Mlle. Cecile Bruner

Rosy pink on rich creamy-white ground; a great bloomer; very satisfactory for bedding. Price, 15 cents each; large plants, 35 cents each.

Prices: Strong plants, 10 cts. each, 6 for 50 cts., 12 for \$1.00, 25 for \$2.00; two-year-old plants, 35 cts. each, \$3.00 per dozen.

Shown in Colors on the Opposite Page

This contains some of the finest new varieties; it also contains older sorts which have made a reputation for themselves as splendid bedding varieties—hardy and ever-blooming—throughout the country. As is our custom in making up collections for the Colored Plate, we have selected varieties showing marked contrasts in color combined with hardiness, vigor of growth and abundance of bloom, so that purchasers may rest assured in obtaining this collection they procure sorts which, in the limited number contained in the collection, will give them a variety unexcelled in all the prime qualities of the best garden Roses.

Our Colored Plate Collections are famous throughout the country; they give universal satisfaction, as is evidenced by the number of congratulatory letters we receive annually from purchasers. Even the smallest size will, under ordinary conditions, give an abundance of bloom, but the larger sizes will, of course, bloom earlier and more profusely.

New Irish Rose Melody

A Magnificent Golden Yellow Hybrid Tea

A most charming and decidedly beautiful Rose, which attracted the attention of all visitors to our Rose gardens during the past summer because of its marvelous free-blooming qualities. The blooms are of good size; the color is an intense, pure, deep saffron-yellow, with primrose edges; a delightful color harmony. A Rose of the highest merits. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

Florence Edith Coulthwaite

An exquisitely beautiful bedding variety. The blooms are large and full, of perfectly imbricated form, the edges of the petals beautifully ruffled. Color, deep cream stippled with bright rose on the inside petals and reflected on the back, thus creating an indescribable delicate orange and peach glow; quite distinct. One of the best. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

Jonkheer J. L. Mock

This grand Rose is the strongest growing in the Hybrid Tea class. The blooms, which are produced with the greatest freedom, are carried on stiff and erect stems, and are of the largest size, of perfect formation and highly perfumed. Color, clear imperial pink; a glorious flower. We can confidently recommend this sterling novelty as a most valuable addition. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

Lady Hillingdon

It has long, willowy stems that are in no sense weak, as the buds are held upright; has a long, slender, pointed bud of brilliant deep golden-yellow, and a striking peculiarity of this Rose was that each day the golden-yellow color became deeper yellow and more intense, unlike all other yellow Roses of which we are familiar, as invariably the tendency after being cut is to get lighter in color. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

Prince E. C. D'Arenberg

Brilliant fiery scarlet, with buds of unusually good substance; a fine erect grower, with ample foliage. Price, one year old plants, 20 cents each; two year old plants, 40 cents each.

Marie Delesalle

As free in growth as Teplitz, flowering continuously; buds long and elegant, opening into lovely blooms of fine form and large petals; color bright deep cerise. A decidedly free bedding Rose. Price, one-year-old plants, 15 cents each; two year old plants, 40 cents each.

Mollie Sharman Crawford

New White Ever-Blooming Rose

This fine variety is destined to achieve the greatest distinction as a garden Rose. The flowers are splendid, of the largest size, grandly formed. They are snow-white, and of splendid texture. It is of admirable habit, fast-growing and free-branching; foliage dark and heavy, forming a good background for the snow-white flowers. Stems strong, holding the flowers erect. It blooms very freely and is delightfully fragrant. Price, 15 cents each; two year old plants, 40 cents each.

Madam Segond Weber

A Glorious New Pink Hybrid Tea

One of the grandest novelties of recent years; everybody is talking about it, and the more one knows of this wonderful Rose the more he will talk about it, and, what is of real value, every bit of talk about Mme. Segond Weber is in praise of her. Rosy-salmon or flesh pink in color, of the general type and color of "My Maryland." The bud is long and pointed, opening into enormous blooms, which deepen its color until fully expanded, when it is as impressive as an "American Beauty." The texture of the Rose is very thick and heavy and the form of the petals peculiarly beautiful. A great garden Rose. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

The Roses described above are considered the standard varieties of Rose culture. With these varieties alone you can have a garden complete in itself—a planting of superb grandeur.

We will supply one each of the Eight Standard Garden Roses in one-year-old plants, for \$1.00; one each of these fine Roses in two-year-old plants for \$2.00; or they can be purchased separately at prices named.

Vestal's Roses are an endless pleasure from April to November.

Superb New Roses of Recent Introduction

Some of the Best Introductions of Various Prominent European and American Rose Specialists

On this and the following pages are offered the very latest introductions, and only those are offered that are superior to varieties of their class and color already in commerce. What we have here represents the highest degree of perfection yet attained in Roses, and as such they cannot fail to be of interest to every lover of new and rare varieties. The descriptions may be relied upon as being absolutely accurate. Right here let us say that we have discarded in all our Rose departments such varieties that have not proven themselves to be thoroughly distinct and different from varieties that we already offer. This fact taken into consideration, we may fairly claim to have the most representative list of Roses to be found on this continent, or perhaps any part of the world. All our plants are of the strongest and cleanest character, sure to grow and give you the utmost satisfaction. Take our advice and give the new Roses a trial. Many of them are of marvelous beauty.

Alice Lemon

A glorious and new white Rose, shading to brilliant salmon-pink on the center petals. In size and form it is a splendid addition to our already complete list of perfect Roses. The bloom is immense, well filled with large, shell-shaped petals, and of exquisite beauty while in bud, which is long and pointed. It is wonderfully sturdy and strong in growth, foliage being large and of a leathery texture.

Countess of Gossford

Beautiful clear salmon pink shaded with saffron. The flowers are of handsome shape and fine substance. In every way it is a remarkably fine, hardy bush, Rose which will grow to perfection in any garden.

Child's Spectacular

This is a sport from Killarney, and might well be named "Striped Killarney." A glorious, sparkling pink, widely striped, blotched and variegated with pure white. Buds exceedingly large, with wide petals and long, pointed shape like Tulips. In fact, the buds are so very large they have often been taken for Tulips.

Duchess of Wellington

Intense saffron-yellow suffused with rich crimson, which, as the flower develops, becomes deep coppery-yellow, a shade of colors hitherto unknown among Roses; the petals are large and of great substance; very free flowering and of delightful fragrance. A great acquisition to the garden Roses.

New Double Killarney

Glorious Killarney-Pink in Color, but Full and Double.

The combination of the exquisite pink of the most beautiful Rose of that color ever grown—Killarney—with double the number of petals carried by Killarney—makes this new member of the family one of the most magnificent Roses ever grown. Apart from the number of its petals, it is in all respects the same as the Pink Killarney, and no greater praise can be bestowed upon it. The true stock is very scarce. Order it early to avoid disappointment.

Double White Killarney

A pure white sport from White Killarney; has a much larger bud, double the size of the ordinary White Killarney. All that we have said about Pink Killarney above can also be said regarding the Double White Killarney. Try them both by all means.

Ecarlate

This is not one of the newest varieties, but the good qualities of this Rose will compel attention. It's a better grower than Etoile de France, is a darker color than Liberty, and more fragrant than La France. What more do you want us to say about it? Ecarlate is without question the finest red bedding Rose to date, and the longer you put off making its acquaintance the more you will miss.

Prices of all Roses on this page, one year old plants, 20 cents each, any 5 for \$1.00. Two year old plants, 50 cents each.

F. R. Patzer

A most beautiful and distinct Rose of very free flowering character. The blooms are produced with great freedom on stiff stems, and are of large size and substance. The color is creamy-buff, back of petals delicate warm pink; as the petals reflex the color becomes light orange-pink, forming a most charming combination. Valuable for garden culture.

Florence Pemberton

Distinctive creamy white, shaded rose; petals bordered rosy salmon; flowers large, very full and beautifully formed. Soon produces large, magnificent bush constantly in bloom. Strong grower and one of the best distinctive Roses.

Edward Mawley

We have no hesitation in stating that this is the finest of all dark crimson Roses, a true perpetual flowering Hybrid Tea, and the most beautiful variety the Rose world has yet seen. The grand novelty has been very aptly named Edward Mawley, in honor of one of the best beloved of British rosarians. It is an enormous, big-petaled Rose, much larger than Melanie Soupert; a Rose it resembles in form, but of the beautiful rich color of a Louis Van Houtte, only with a more velvety shading upon the inside of its petals.

F. R. Patzer.

Eugene Boulett

This will become a standard variety. It has all the earmarks of a good Rose. Vigorous grower; free bloomer. The blooms are of the largest size; the color a rich ruby-red, and of delicious fragrance.

Friedrichsrue

Color deep blood red; large, full, well formed, flowering freely and continuously; excellent habit of growth. A splendid Rose.

Farbin Konigin

(Queen of Colors.) This Rose, as its name implies, is the queen of colors, being almost beyond description. One of the finest grown of this beautiful shade. Buds long and pointed, opening large and double. Color bright carmine and rosy-crimson, overlaid with a satiny silver sheen. Very free bloomer. Perfectly hardy. A magnificent garden Rose.

George C. Waud

Orange-vermilion, remarkably distinct and beautiful; large, full, well formed; flowers freely; highly tea scented. One of the best.

Harry Kirk

A splendid Rose, of most robust growth, with free-branching habit, flowering freely and continuously; the blooms are large, with large, smooth petals of great substance, the form is perfect, the buds long and elegant. Color deep sulphur-yellow, passing to a lighter shade at the edges of the petals.

Mad. Melaine Soupert

The strong, vigorous plants form symmetrical bushes, with an abundance of heavy, dark foliage, and the superb, large, globular flowers are borne on stiff, erect stems. The form is distinct and elegant, and the fragrance delicious. Color golden yellow suffused with faint shades of pink.

Mme. Constant Soupert

This is one of the most valuable Roses that has been sent out in recent years. The growth is vigorous and the flowers large and very full, perfect form, color lasting a long time in perfection. Citron yellow, shaded with rosy peach; plump, pointed buds of great size. The parentage, Maman Cochet and Marechal Niel, a sufficient guarantee of royal blood.

Miss Alice de Rothschild

In color a rich, deep citron-yellow, which intensifies as the bloom expands. The flowers are very large, full and of perfect form, with high pointed centre; the petals charmingly reflex. Growth is vigorous, erect and free, continuous in blooming, deliciously fragrant; a superb Rose in every respect.

Price of all Roses on this page, 20 cents each, 5 for \$1.00; two year old plants, 50 cents each.

Our Fall Catalogue.

On the first of September we issue a Catalogue of Bulbs and Plants for Fall Planting and Winter Blooming. We mail this Catalogue to all our customers, and will send it free to others who wish to order.

Mary, Countess of Ilchester.

Mrs. Aaron Ward

This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years, in a color that catches the eye at once. Coppery orange in the open bud, golden orange when partly developed, pinkish fawn of lovely shade when fully open, when it looks like a full fluffy silk rosette. No wonder everybody that sees it falls in love with it.

Lady Ursula

Color a most beautiful shade of flesh-pink, of great substance and good form; petals large, circular and delicately perfumed. A grand grower, producing its round, full blooms in wonderful profusion.

Laurent Carle

An extremely vigorous grower of erect branching habit and fine dark green foliage; long buds borne on long stems, opening into large flowers of perfect form, just full enough to open freely; color, brilliant velvety carmine; a very promising variety.

Price of all Roses on this page, 20 cents each, any five for \$1.00; two year old plants, 50 cents each.

Mary, Countess of Ilchester

In the opinion of many expert rosarians this must be classed as one of the finest novelties. Mr. Roger Murphy, who has worked with Roses for the past forty years, says: "This Rose has come to stay. After trying out all the novelties of the past five years, I place the Countess Mary first." The color is unique and distinct, being a warm crimson-carmine, a shade difficult to describe; of great size, with large, smooth, circular petals, deliciously scented. Simply grand.

Lady Alice Stanley

This, we predict, will become very popular as a garden Rose. The petals are shell-shaped, forming a perfect flower; the color on outside of petals is a deep coral-rose; inside, delicate flesh, often flushed and suffused with bright flesh. Remarkably attractive, without doubt a magnificent Rose.

Mrs. Aaron Ward

Max Hessdorffer

An Improved Pink La France

This new handsome Hybrid Tea is one of the strong Roses of our collection. In beauty and merit it is worthy of a whole book of praise; grows strong and sturdy with beautiful, healthy foliage, and bears great quantities of rich, superb flowers that are magnificent both in color, form and fragrance; color bright rosy pink. We have the true stock of this superb variety.

MRS. JOSEPH H. WELCH. Rich brilliant rose-pink. Undoubtedly the largest Rose in cultivation and the most perfect type of Rose the world has yet seen. Its rich, brilliant color, perfect shape and immense size command attention in any Rose garden. The buds are very large and of perfect form. A wonderful bloomer. Flowers delicately sweet scented.

Madame Philippe Rivoire

A Superb New Hybrid Tea

New, distinct and beautiful. Color rich apricot yellow with light yellow center, shaded pale carmine. Strong robust grower, each plant producing an enormous quantity of elegantly shaped, well-formed, large, deep, double flowers on strong, erect stems.

Madam Philippe Rivoire

Perle von Godesburg.

Perle von Godesburg

A superb New Yellow Rose. Yellow Hybrid Tea Roses are all too scarce, and this splendid variety sent out from Germany as Yellow Kaiserin' Augusta Victoria is extremely meritorious. Color is rich canary-yellow with light saffron shadings. Strong grower and free bloomer.

Senateur Mascurand

An amber yellow Hybrid Tea Rose, the center of the bloom resembling the color of the yolk of an egg, toning to high sulphur yellow. Large, full, globular blooms. A strong, healthy grower and very free bloomer. Blooms of large, perfect shape. This is a much better garden Rose than Mrs. Aaron Ward. Perfectly hardy.

SUNBURST. This magnificent giant yellow Rose is a fine forcer; it stands head and shoulders above all others of its color. It has long, pointed buds, which can be cut tight for market. The color is orange-copper or golden-orange and golden-yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Belongs in the class of big Roses; has created a sensation wherever shown.

MADAME P. EULER. Vermillion-pink, changing to silvery-pink; very large, very full and possessing great lasting properties; perfect form; fragrant.

MRS. HERBERT STEVENS. This Rose resembles Maman Cochet, only the buds are even more pointed. Faultless in shape and form, producing long buds of exquisite grace and refinement. White with a distinct fawn and peach shading towards the center. A sterling novelty of distinct fragrance. Very free and vigorous grower and a wonderful bloomer. Hardy with protection.

Price of all Roses on this page, strong pot-grown plants on own roots, 20 cents each; two year old plants, 50 cents each.

American Beauty

The World Famous Rose.

If any Rose has earned the title of the "National Rose," it is the American Beauty. Wherever this Rose is known, it is the queen, and it surely deserves the name. Beautiful, fragrant, enduring, it is and always shall be, the Queen of Roses. In size, color and form it has no equal. This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. Indeed, the market is never fully supplied with them even at this high price. It is because of its large size, rich color and delicious fragrance. It is a hardy Rose of the largest size, having the everblooming qualities of the Tea Rose with the delicious odor of the Damask or Moss Rose. It is the sweetest of all Roses. In color it is a deep brilliant red, shading to a rich, carmine crimson. American Beauty is, like Marechal Niel, difficult to start from small plants, therefore we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason that it is hard to propagate. Price, one year old plants, 15 cents each; large two year old plants, 50 cents each; extra large three year old plants, \$1.00 each.

American Beauty.

Alice Roosevelt.

Wellesley

This grand, hardy Everblooming Rose, a seedling of "Liberty" crossed with "Bridesmaid," retains the form of "Liberty" with the fullness of "Bridesmaid," and in color is a beautiful shade of pink, the outside of the petals being bright and clear, with a silvery reverse. It is a very vigorous, healthy grower, carrying the flowers on long, stiff stems. Remarkably free flowering and fine keeping qualities. Price, 15 cents each; two year old plants, 40 cents each.

Lady Battersea

This variety has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower; not very full, but an unusually showy variety; the only red Rose approaching Niphetos in form; color, brilliant and unusual. Price, 10 cents each; large two year old plants, 35 cents each.

Alice Roosevelt

An Improved Mme. Chatenay.

A strong, healthy grower and free bloomer; quite hardy and fine for the yard or garden. Price, 15 cents each; two year old plants, 35 cents each.

Pink Maman Cochet

This superb Rose is well known as a queen among Roses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick, shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy everblooming Roses.

White Maman Cochet

A splendid Rose; has all the good qualities of Maman Cochet. Like some other white roses, this variety, especially in the autumn, shows pink markings on the outside petals when the flower is in bud. When open the blooms are pure white and entrancingly lovely, large, fragrant, hardy and freely produced.

Crimson Maman Cochet

(Etoile de France.)

This well known Rose we have named descriptively Crimson Maman Cochet, because of its vigor of growth, stiffness of stems, heaviness of foliage, freedom of bloom, and hardness. Bears masses of full, deep-formed flowers singly, on long, substantial stems. The color is a new and clear shade of red or crimson-velvet, brightening in center; of exquisite fragrance. One of the best and sweetest Hardy Hybrid Tea Roses of its color.

Beautiful Pink Maman Cochet.

Red Maman Cochet

(Helen Gould.)

This is a Rose that will grow and give satisfaction in almost any soil or situation. It produces its splendid flowers in amazing profusion, on long, strong shoots. For vigor and freedom of bloom, thousands of growers regard this Rose as better than American Beauty, and without a peer. The flowers are very full, perfectly double; buds long and pointed. Color is a warm, rosy crimson, hardy everywhere. The exquisite fragrance, beauty of form and hardness of nature make it ever popular.

Yellow Maman Cochet

We continue to regard this grand kind as absolutely the best hardy, everblooming yellow Rose. It is ideal for open ground culture—a typical Cochet Rose, with gracefully molded buds, flowers magnificent when open, on stiff, strong stems. This kind is identical in every way with pink and White Cochet, except in the color of the flower, which is deep sulphur-yellow.

Blush Maman Cochet

(Wm. R. Smith.)

Grand new garden Rose, with beautiful, firm, glossy foliage, quite like Maman Cochet in appearance, with flowers of heavy texture. Color, succeeding admirably in open ground, and produces immense blooms on long, stiff stems.

Special Offer One each of Pink, White, Red, Yellow, Blush and Crimson Cochet, strong plants, for 75 cts.; two of each, 12 in all, \$1.25. Two year old plants, one of each, 6 in all, \$1.75, by express.

NOTE.—We pay all postage on Roses and Plants sent by mail, but when sent by express the purchaser pays the express charges. Two year Roses should always go by express, unless to very distant points, as we can send larger and better plants in this way, and when packed with the tops on and some earth on the roots they arrive in the best condition to grow and bloom quickly.

Cardinal

This magnificent, deep, rich red Rose is a welcome and long-hoped-for addition to this class. Of American origin, it is the equal in form and color of any Rose in the list. Exceedingly free flowering; large, massive, full, double flowers, with exquisite fragrance. Will thrive in almost any location. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

Duchess de Brabant

Or Comtesse de la Barthe. Combines exquisite perfume, beautiful coloring and matchless profusion of flowers and foliage. Soft, light rose, with heavy shading of amber and salmon. Quite hardy. 10 cents each; large plants, 25 cents each.

Two "Well-tried and True" Varieties—Bride and Bridesmaid.

The Bride

A Standard White Rose of Exquisite Form and Color.

There is no other white Rose more satisfactory than The Bride. The buds and flowers are unusually large, well formed and deliciously perfumed. When planted in the open ground the flowers are sometimes found to be delicately tinted with pink, making it exceedingly attractive. Of strong and healthy growth; a profuse bloomer. Its blooms are of the most suitable form and quality for cut flowers. Price, one year old plants, 10 cents each; two year old plants, 35 cents each.

Etoile de France

Gorgeous, rich, velvety crimson; full, very large, double and cup-shaped Rose, with fragrance that is deliciously exquisite. Plants form strong, upright bushes, with splendid deep green foliage, and in the open ground it is particularly good, growing hardy and vigorous. As the weather grows cold towards fall the color becomes darker, until the flower is almost black, so deep and velvety are its crimson petals. It is pre-eminently the Rose for the masses. It is always in bloom from the earliest days of summer until November. There is no deep red Rose in our list we can recommend more highly. Price, one year old plants, 15 cents each; two year old plants, 35 cents each.

Bridesmaid

The Favorite Pink Tea Rose.

More plants of this are cultivated by the amateur, and more cut bloom is sold by the flower dealer, than any pink Rose. The buds are of exquisite shape, solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities, after being cut. Price, one year old plants, 10 cents each; two year old plants, 35 cents each.

Col. R. S. Williamson

Satin white with deep blush center; blooms very large, full, of perfect form, with high pointed center; canes rigid and freely produced, petals round and of great substance. A grand Rose for any purpose. Price, 15 cents each; two year old plants, 35 cents each.

Madame Abel Chatenay

Further trials each year serve only to strengthen our belief that this is one of the greatest Hybrid Tea Roses of its type; color rosy carmine, with darker shadings; reverse of petals pale salmon. Splendid in the open ground, where it is absolutely hardy. Beautifully formed flowers, full, deep and double. A strong grower and a free bloomer. Price, one year old plants, 15 cents each; two year old plants, 35 cents each.

The Beautiful La France Roses

The La France Roses are of the highest merit, and each member of the family has particularly strong points. Practically hardy everywhere, they are splendidly adapted for general planting, and each of them deserves a place in every flower garden of America.

Killarney.

Killarney

The New Hardy Everblooming Rose

A very beautiful Hybrid Tea Rose. The color is an exquisite shade of deep shell-pink lightened with silvery-pink. The base of the petals is a soft silvery-white, relieved with enough yellow to make it more attractive. The buds are exceptionally long and beautifully formed, the open flower is graceful in the extreme. Hardy in this climate without protection. In the garden the flowers are very lasting, the coloring remaining clear and bright to the last, delicate Tea Rose fragrance. Price, 15 cents each; two year old plants, 40 cents each.

White Killarney

A pure white "sport" from the pink Killarney; equal to it in all the good points of the latter, superior to it in some. One strong point of superiority is that it has more petals than the parent variety, of greater substance, so is of greater value for outdoor bedding. The buds and flowers are beautiful beyond description; many consider it easily the finest white garden Rose in cultivation. Price, 20 cents each; two year old plants, 50 cents each.

Madame Schwaller

A beautiful combination of salmon-rose with the edges of the petals touched with violet-carmine. One of the most fragrant of all Roses. A particularly strong grower, forming a handsome bush, and constantly in bloom. Price, 10 cents each; large size, 30 cents each.

We will send one each of the Pink, White, Striped, Red and Yellow La France Roses for 60 cts.; two year old plants, five in all, by express, for \$1.75.

PINK LA FRANCE. Exceedingly sweet and handsome; flowers and buds large size, color lovely shade of silvery pink tinged with crimson; fragrance delicious; flowers very full and wonderfully beautiful. It commences to bloom soon after planting and continues until stopped by frost, and is hardy with protection.

WHITE LA FRANCE (Augustine Guinoisseau). A pure white member of the La France family, having just a tinge of rose-blush tint, which grows stronger in the depths of the petals.

RED LA FRANCE (Duchess of Albany). A superb rose, resembles the Pink La France, but is much deeper in color.

YELLOW LA FRANCE (Madame Helen Cambier). One of the best of the newer French Roses of its color; very pretty flower, semi-double. Bright canary-yellow.

STRIPED LA FRANCE. This Rose is almost exactly the same as Pink La France, except in color, which is bright satiny pink distinctly striped with bright rose.

Price of all the La France Roses, 15 cts. each, 4 for 50 cts.; two year old plants, 40 cts. each.

Pink La France.

Kaiserin Augusta Victoria.

Perle des Jardins

The bush is extra strong, hardy and a most prodigious bloomer. **Price, one year old plants, 15 cents each; two year old plants, 35 cents each.**

Kaiserin Augusta Victoria

A Superb, Hardy White Rose.

This marvelous Rose has had many rivals for the place it still retains as the greatest White Rose in existence. Strong, sturdy grower, flowering with the utmost freedom. It holds first place as the most popular of white Roses for general planting. From early spring until late fall its glorious full-double flowers in all their perfection are produced continuously on long, stiff, erect stems; color delicate creamy-white, with a delicious magnolia-like fragrance, exquisite buds, absolutely hardy. **Price, one year old plants, 15 cents each; two year old plants, 35 cents each.**

Rena Robbins

A very strong grower, with splendid stems and immense globular flowers; color, white or lemon, with orange heart. The bloom is of splendid size, and lovely, rounded form. **Price, one year old plants, 20 cents each; two year old plants, 40 cents each.**

Madame Jules Grolez

Red Kaiserin Augusta Victoria

One of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. Mad. Jules Grolez is an exceedingly free-blooming variety, with very large, finely formed flowers. The color is a distinct and charming shade of cherry-red. The fine form and attractive shape of the flowers makes them excellent for cutting. Like Kaiserin Augusta Victoria, Mad. Jules Grolez is a Rose of great value for open-ground culture. It is a remarkable strong growing variety, as hardy as the Hybrid Perpetuals, free-blooming and in every way excellent. Price, one-year-old plants, 15 cents each; two year old plants, 35 cents each.

Madame Jenny Gillemot

(The Yellow Kaiserin.)

Prince of Bulgaria

This magnificent Rose has been well recommended by hundreds of our customers, and we have grown an extra-large stock in order that we might give it the wider distribution which its merits cause it to deserve. Not the least of its charms is the large, bright green foliage, and the buds are simply grand. The flowers are large and quite full; outer petals superb rosy flesh, with the index petals of a slightly lighter tint. This wonderful Rose, of great beauty and fragrance, will be enjoyed by the owners of Rose-gardens throughout the United States. Price, one year old plants, 15 cents each; two year old plants, 40 cents each.

President Taft

There have been two Roses sent out under this name, a red variety from Europe without merit, and the one we here describe. This Rose was raised in Cincinnati, the home of President Taft. It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough." Price, one year old plants, 20 cents each; two year old plants, 50 cents each.

New Rose Wm. R. Smith

A Vigorous, Healthy Grower, Excellent in Quality and Bountiful in Bloom.

Whether you live East, West, North or South, whether you wish one Rose or 1,000, here is a Rose which has our unqualified endorsement. It will thrive abundantly in almost any reasonable location. The flowers are large, full and double, and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored cream with flesh tint tips, buff yellow base and the center a heart of pink. Perfect buds. The flowers are borne on long, strong stems, just right for making bouquets. Fragrance is delightful. You will admire the foliage, too, deep green leaves on red stems and the new growth of rich garnet; the plant will grow for you vigorously, is among the hardiest in this class and blooms abundantly. Price, one year old plants, 15 cents each; two year old plants, 35 cents each.

Miss Mildred Vestal

Miss Mildred Vestal

In introducing this variety we wish to say that it is one of the best Hardy Everblooming Red Roses in existence. This superb new Rose is a result of a cross fertilization between "Rhea Reid," that grand red bedding Rose, and "Richmond," the greatest of all red forcing Roses, which insures in their offspring every point of excellence. It has magnificent large foliage, free from disease of all kinds, and is a tremendous grower—one of the best in all our list. The glory of the plant, however, is in the immense deep double flowers of a new and clear shade of crimson scarlet. It has withstood a zero temperature. Price, one year old plants, 15 cents each; two year old plants, 35 cents each.

Christian de Noue

The flowers are produced singly, sometimes in clusters, producing a gorgeous effect on the lawn or in the garden all summer through. A wonderfully strong, vigorous grower, actually attaining a height of 4 to 5 feet, perfectly hardy everywhere. For fragrance there is no other Rose to compare with it. Price, 10 cents each; two year old plants, 35 cents each.

Bedding Effect of the Baby Ramblers Three Months from Planting.

Dwarf or Baby Rambler Roses

Red Baby Rambler

The foliage is dark, glossy green and remarkably free from insects and fungus. The flowers are borne clusters of 20, 30 or more to the cluster; in every way resembling the blossoms of the Climbing Crimson Rambler. It is perfectly hardy and blooms all the time indoors, and from May to November outdoors. Splendid for making a border. Price, one-year-old plants, 15 cents each; two-year-old plants, 40 cents each.

Pink Baby Rambler

FOUR FAMOUS RAMBLER ROSES

FOUR COLORS---PINK, RED, WHITE AND YELLOW

Dorothy Perkins (Pink)

This beautiful new Rambler Rose is becoming even more popular than the original Crimson Rambler. And well it may, for it is indeed a finer pillar Rose than that famous variety. The growth of a single season is wonderful, its handsome, glossy green foliage being one of its strong points. The flowers, however, are its crowning beauty, being borne in immense clusters of fifteen to thirty, and possess great lasting qualities. Flowers a beautiful shell-pink, very double, with petals artistically crinkled. Remarkably pretty pointed buds. This Rose is extremely hardy and will withstand the coldest weather. We advise our friends to plant this variety where it can be allowed plenty of room, and it will give an account of itself. Price, one year old plants, 10 cents each; two year old plants, 35 cents each.

New Fiery-Red
Rambler Rose

Excelsa

A splendid new Climbing Rose, remarkable in many ways, but particularly in the brilliant fiery-red or intense crimson-scarlet of the flowers. The intensely brilliant color is accentuated by the great masses of giant trusses produced on the plants, and furthermore by the contrast with the deep green, glossy foliage. The flowers are very double; they are larger than any of the Rambler Roses and borne in trusses of thirty to forty on each; the body of the flower is brilliant in color, but toward the edges of the petals they light up with a wonderful scarlet-crimson. Price, one year old plants, 20 cents each; two year old plants, 50 cents each.

White Dorothy

A White Climbing Rose of Indescribable Charm and Vigorous Growth.

This wonderful Climbing Rose is so exquisitely beautiful that it is well worth all the prominence it can be given. It is a rampant grower and in a remarkably short time will cover a large trellis with its long, sturdy canes clothed with brilliant green, shining foliage of splendid texture and free from mildew or attacks of insects. The flowers are of a brilliant, glistening white and are borne in great trusses, completely covering the plant, until it resembles a snow drift. Price, one year old plants, 15 cts. each; two year old plants, 35 cts. each.

Shower of Gold

A very vigorous grower, producing extremely long laterals covered with beautiful glossy Wichuraiana foliage; color, deep golden yellow and orange, in fine trusses; one of the finest, leaving little to be desired in a yellow "Rambler." Produces a mass of bloom. The foliage is beautiful in form, in color, and in its high metallic luster. Price, 15 cents each; two year old plants, 50 cents each.

Dorothy Perkins Rose

New Climbing Crimson Baby Rambler

The Very Newest of all Rambler Roses—In Constant Bloom and Brilliant in Effect

Miss G. Messman

This new, magnificent, hardy climbing Rose combines the wonderful everblooming qualities of the famous Crimson Baby Rambler Rose with a climbing habit which makes it one of the best of all Roses for porch or pergola adornment. The flowers are brilliant crimson and are borne in large clusters, all summer through, creating at all times a most beautiful effect. The plant is extra strong in growth, absolutely hardy and clothed with handsome foliage, which is not subject to attacks of insects or disease. Price, 25 cents each; two year old plants, 60 cents each.

Everblooming Climbing Roses for the South

These are the Roses so necessary for the home, giving to it, no matter how humble or pretentious, a touch of beauty not to be had by any other form of adornment. They have also a most useful side, in that they give most delightful and refreshing shade when used on the porch, veranda or pergola. They are used very extensively in covering unsightly spots in the grounds, for screening outbuildings and for trailing down over embankments.

Climbing American Beauty.

Gainesborough

This is a grand Climbing Rose. We wish all of our customers could see its great beauty.

For a hardy everblooming climber it has no equal. For beauty and size we place this variety at the head of the Hybrid Teas. Its delicate colors are hard to describe, being delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it resembles a large, fine, white, fluffy Peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. Be sure and try this grand Rose; you will meet with no disappointment. Price, 15 cents each; two year old plants, 50 cents each.

Climbing White Maman Cochet

The Sensational, New, Hardy, Everblooming, White Climbing Rose, long sought for.

Just as the old favorite White Cochet is one of the very best of all White Tea Roses, so we believe this new White Climbing Tea will jump into the widest popularity. It blooms continually all summer, bearing the greatest profusion of perfect White Cochet Roses, and the plant grows with wondrous strength and vigor. This is without doubt one of the finest white everblooming Climbing Roses ever introduced, and can be procured from very few concerns. Its scarcity makes it valuable, and it appeals strongly to those who like to have something different from their neighbors. Price, 25 cents each; two year old plants, 60 cents each.

Climbing Killarney

Climbing Killarney is a sport of the now popular cut flower Rose Killarney and excels any variety of its class and color ever introduced. Proved immensely popular last year. Climbing Killarney makes a strong growth, with a beautiful deep bronzy-green foliage, bearing its long, pointed buds and flowers on heavy shoots and canes. The color is an exquisite shade of brilliant pink. Flowers immense in size, with petals of great substance and delightful fragrance. A great new Rose. Entrancingly beautiful—a wonderful flower. Price, 20 cents each; two year old plants, 45 cents each.

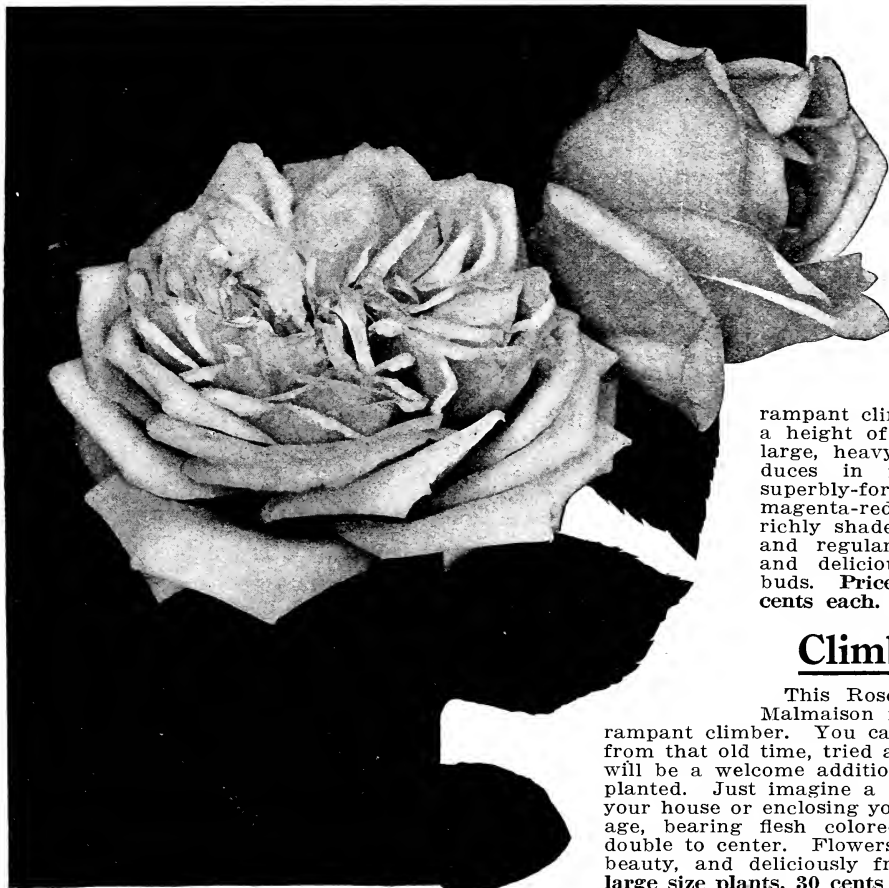

Climbing American Beauty

Here we have the latest triumph in American Rose growing, the true Climbing American Beauty in all its promise and glory, the realized dream of every Rose grower. Just the same as American Beauty practically. Large flowers, each produced on separate stems, vivid rosy-crimson in color, with delicious fragrance. Borne in the greatest profusion throughout the growing season. Foliage tough and leathery, deep, glossy green, sun and insect proof. The youngest plants attain a height of 10 to 15 feet in a single season. Hardy and as sturdy as an oak in all localities. Splendid in the South. For single specimens, trailing over verandas, for trellises, anywhere and everywhere, this Rose will give the greatest satisfaction. Words of description can hardly do justice to this magnificent Rose. Absolutely true to name, on its own roots. Strong, one-year-old plants, 30c each; larger size, 50c each.

Reine Marie Henriette

A strong growing and climbing Rose, making a grand pillar Rose in the South. Flowers full and well formed; rich, brilliant crimson. A grand Rose and a fine companion to Marechal Niel. Try it, Price, 15 cents each; large size, 35 cents.

IN BUYING ROSES buy them as you would anything else—keeping in mind that the cheapest is often the dearest in the long run. Cheap Roses must necessarily be grown cheaply, therefore buy where you know you are safe, both as regards prices and quality. Our stock for this season's trade was never in better condition or larger supply.

Marechal Neil—Should be in every Rose Garden.

Yellow Marechal Neil

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Neil at one time. This Rose starts rather slowly, and for that reason the best success will be had with the stronger flowers. Price, 15 cents each; stronger plants, 25 cents; two year plants, 50 and 75 cents.

Mrs. Robert Peary

(Or Climbing Kaiserin Augusta Victoria.)

The first white hardy everblooming climbing Rose. It is an offspring of that grand variety, the best pure white hardy everblooming Rose, Kaiserin Augusta Victoria. The flowers are something grand; they are the equal of the finest and most beautiful cut flower Roses; of splendid substance; extra large, full, deep and double, and are produced on long, stiff stems. Buds are long and pointed. In bud and flower it is truly beautiful; has a delicious fragrance—just like cherry blossoms. If you want a quick growing, hardy, climbing, sure-to-bloom Rose, one that will give you flowers this season, this is the only white variety that will do it. Price, 15 cents each; large size, 40 cents each.

Climbing Wootton

To our mind this great Rose is to be classed with Mrs. Robert Peary and other great climbing varieties for these reasons: It is perfectly hardy, has no weak spot, grows with wonderful vigor, blooms continuously throughout the growing season, producing flowers that are nothing less than superb, both in beauty and in fragrance. If there is such a thing as having one rose more beautiful than another, we think this variety may be entitled to this distinction. It is a strong, rampant climber, growing in one season to a height of from ten to fifteen feet, with large, heavy, insect-proof foliage. It produces in most wonderful profusion its superbly-formed flowers, which are bright magenta-red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously scented. Make beautiful buds. Price, 15 cents each; large size, 40 cents each.

Climbing Malmaison

This Rose is an exact counterpart of Malmaison in foliage and flower, but is a rampant climber. You can not tell the flower or foliage from that old time, tried and true variety, Malmaison. It will be a welcome addition wherever climbing Roses are planted. Just imagine a Rose climbing over the side of your house or enclosing your veranda in its luxuriant foliage, bearing flesh colored roses of immense size, and double to center. Flowers of graceful form, unsurpassed beauty, and deliciously fragrant. Price, 15 cents each; large size plants, 30 cents each.

Climbing Clotilde Soupert

A Wonderful, Hardy Climbing Rose, in Constant Bloom.

An offspring of that famous Rose, Clotilde Soupert, this beautiful hardy everblooming climber is excellent in every way. It is most vigorous, and the small plants will attain a height of 15 to 25 feet in a single season, branching extensively. Climbing Clotilde Soupert produces cluster after cluster of the most finely formed flowers throughout the entire growing season—large, round, perfectly double, with beautiful imbricated petals, the odor of which is delightful. The ivory-white color, shading toward the center to silvery rose, gives an effect that is indescribably beautiful. Climbing Clotilde is thoroughly hardy everywhere and needs no petting. The merits of this Rose cannot be too enthusiastically stated and we will guarantee it to please you. Price, 10 cents each; two year old plants, 30 cents each.

Climbing Meteor

A superb everblooming climbing Rose. A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Free, persistent bloomer, with magnificently formed buds and flowers. Dark, velvety crimson, the equal of any Rose in cultivation. Hardy, with protection, and will give absolute satisfaction. Price, 15 cents each; two year old plants, 40 cents each.

American Pillar.

American Pillar

The flowers are single, of immense size, three and four inches across and very durable. They hang in immense clusters all along the branches and make a remarkable sight, a veritable sheet of bloom. The color is a dainty apple-blossom pink, while in the center of each flower is a cluster of bright yellow stamens. This Rose is as hardy as an oak tree, of very strong growth, soon covering any space allotted to it. The American Pillar is going to become as popular as the Crimson Rambler. If you want a novel and beautiful garden ornament, order this Rose. **Price, one year old plants, 20 cents each; two year old plants, 50 cents each.**

Tausendschon

(Thousand Beauties.) A Rose producing on the same bush so many different colored flowers that it is impossible to describe or even picture the variations. Colors run from delicate balsam or tender rose through the intermediate shades of bright rose and carmine, with white, yellow and various other delicate tints showing. A strong grower, impervious against mildew, absolutely hardy. For climbing over porches, single specimens or pyramids, it will please you from the day you plant it. **Price, one year old plants, 10 cents each; two year old plants, 30 cents each.**

Dr. W. Van Fleet

Dr. W. Van Fleet bears flowers which, when open, run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh pink on the outer surface, deepening to rosy flesh in the center. The flowers are full and double, of delicate perfume, buds pointed, stems twelve to eighteen inches, and fine for cutting. The foliage is a peculiar shade of bronze green, large and glossy, with spines; a bright bronze red. The Wonder Bedding Plants (Acalphas)

Brighter and More Attractive than Coleus.

AUTUMN TINTS. (Acalpha Bicolor). A most wonderful plant, surpassing the finest Coleus or Begonia in the rich color of the leaves, which are beautifully marked with a bright green color margined with a wide irregular band of lemon yellow and having wide yellow bars running lengthwise of the leaf, and also thickly dotted with yellow blotches. Its most important feature is its wonderful qualification for bedding, as it will stand bedding out like a Coleus; in fact, in the sunniest place it produces the highest coloring. **15 cents each, 2 for 25 cents.**

FIRE DRAGON. (Acalpha Tricolor). Rich and beautiful. Mottled and blotched with crimson and scarlet on green background. Foliage extra large and maintains its markings regardless of Summer heat. **15 cents each, 2 for 25 cents.**

COMET PLANT (Acalpha Sanderii). Leaves are dark green, from the axil of each of which springs a long, drooping spike, of glowing crimson-scarlet, nearly an inch in diameter and from eighteen to twenty-four inches long, very velvety in texture, reminding one of a long piece of brilliant chenille. **Price, 15 cents each; three for 40 cents.**

AUREA NANA. It is admirably adapted for ribbon lines, carpet bedding, or massing front lines in foliage beds. It is of compact growth. Color of foliage, bright golden yellow.

BRILLIANTISSIMA. Crimson, scarlet and pink. Its gorgeous color gives it the name of "Rainbow Plant."

PARYONCHOIDES MAJOR. It is the Alternanthera so largely used in all ornamental carpet gardening. It grows only about six inches high, and can be kept much shorter by shearing it. The color is as bright when first planted as at any other time, and this is kept constantly. The color is brightest carmine.

Two New Alternatheras

CROTONII. Golden yellow, with lacings of vivid green; everybody admires the golden bands of the Aurea Nana, and Crotonii is this same variety reproduced in giant size, and with the colors intensified, will be found valuable in bedding, as it produces a finished effect in a very short time after planting. **Price, 10 cents each; per dozen, \$1.00.**

JEWEL. Surpasses Parychoides in brilliance, freedom and size of growth; color, rosy carmine and bright cerise. **Price, 10 cents each; per dozen, \$1.00.**

Golden Spotted Abutilon

ECLIPSE. This is a novel and distinctive variety. The leaves are beautifully spotted with golden yellow on a green ground. The flowers are orange yellow, and are produced abundantly. McNALLY. Golden yellow, veined green.

Our New Imperial Gloxinia, Blooms all Summer.

Alocasia Illustris

An excellent plant to grow in connection with fancy leaved Caladiums or for planting in the open border in a partly shaded position. The foliage is large, of a dark green, clouded with a velvety blue black. Ardisia Crenulata

A very ornamental greenhouse plant, with dark evergreen foliage, producing clusters of brilliant red berries; a first-class house plant in winter. Price, 50 cents each.

Amaryllis Johnsonii

One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late winter or early spring, bearing large flowers of intense crimson with a delicate white feather in each petal. Fancy Leaved Caladium

These plants are especially valuable for decorating conservatories, window boxes, floral baskets and as specimen plants. They are never as large as Esculentum, but the brilliant cardinal red, cream, pink and various shades of green that are displayed in the veinings and blotches of leaves cannot be obtained in any other class of plants. For arranging floral baskets or table decorations, the leaves are quite as handsome as any flower. Price, 25 cents each.

New Imperial Gloxinias

Words cannot describe the rare beauty of these flowers to one who has never seen them. The flowers often measure three inches in length and two in width, and are upright and pendulous. They succeed well with ordinary care and should be grown in a moderately shady place, as the sun burns the foliage when wet, causing brown spots to appear. Plant bulbs in a mixture of light loam, manure and sand, equal parts, giving but little water until signs of life appear. You will have a succession of bloom from June to September. When done blooming dry gradually and keep in pots over winter in a warm place.

GRAND SPECIAL OFFER. 15 cents each; four for 50 cents.

MARJORIE DAW. Semi-climbing or trailing habit. Bright salmon pink flowers in broad panicles. A rapid grower; bright green leaves; an excellent variety.

GRACILIS LUMINOSA. As the name implies, it is one of the most symmetrical and yet graceful plants we have ever known; very strong and robust, but still keeping its shape so as to make a very attractive winter house plant. The flowers, when first opening, are bright cherry, changing to a clear coral red.

MARGUERITE. Leaves a bronzy green, somewhat resembling Metallica, but giving a more bushy form. Light rose colored flowers.

SANDERSONII. Coral Begonia. One of the best flowering Begonias. The flowers are a scarlet shade of crimson, borne in profusion for months at a time.

THURSTONII. A distinct and pretty shrubby variety, with thick heavy foliage, which is of a rich metallic green above and bright red underneath; the flowers are a fine pink, rising well above the foliage.

M. DE LESSEPS. New Begonia. It is beautifully spotted with silver. A very strong, free growing variety.

TOMENTOSA. This Begonia has white tipped, rose colored flowers; a tall growing variety.

RUBRA. If you can have only one Begonia, let it be a Rubra, for it will prove a constant delight. It is so fast growing that it will, in a year or two, reach the top of your window, sending up heavy, stiff canes an inch in diameter, and rising beside them will grow strong slender branches, gracefully drooping under heavy waxen leaves and pendant panicles of coral colored flowers as large as a hand.

PRESIDENT CARNOT. New Begonia. A remarkably strong growing variety; foliage very large; flowers coral red, in large pendant panicles, similar to Rubra, but much larger. Price, 15 cents each.

Hardy Chrysanthemums in Permanent Planting

Pompon Chrysanthemums

These beautiful small flowered varieties are again coming to the front, and are certain to become popular for outdoor bedding purposes. They are absolutely hardy, and produce an abundant, almost lavish, profusion of blooms, and the plants lend a coloration to the garden just at the time when other plants have been destroyed by frost. Frost does not materially affect the flowering. The collection embraces all the leading colors, and, with but a slight covering of leaves or coarse stable litter during the winter, will take care of themselves after once planted.

ACTO. Incurving, dahlia-like petals. Bright rose, with light reverse.

ALMA. A beautiful pink variety; flowers large for a Pompon. A beauty.

BABY. In a class quite by itself; a fine grower, with dainty foliage and stiff stems. Solid little flowers, with curiously folded petals; very late.

BABY MARGARET. Small and compact in form, with flowers twice as large as Baby, on longer stems. Pure white. Very useful and substantial.

COLORINDA. Semi-dwarf, producing erect sprays of an even shade of bronze.

DIANA. A fine pure white.

HELEN NEWBERRY. Two inches in diameter, high, rounded flowers of purest white, maturing Thanksgiving to Christmas, when most Poms are gone.

KLONDIKE. Most beautiful yellow in the family; extra fine.

RUFUS. Crimson maroon; very fine.

SNOWDROP. Pure white; small flowers; very profuse bloomer.

Price, 10 cents each; set for 75 cents.

Anemone Flowered Chrysanthemums

The Anemone Flowers, consisting of one or more rows of flat or tubular ray florets, with shorter quilled or tubular disc florets of the same or a distinct color, are being grown in sprays for artistic floral arrangements.

GARZA. Single row of broad ray petals; well formed center. White, tipped yellow. It is specially adapted for bush plants.

MRS. AUGUST KNAB. Creamy white, with large honey-combed center.

SATISFACTIO. Chrome yellow, suffused with gold and amber; trumpet-like florets.

SURPRISE. Forked and hooked guard petals; high center; pink florets.

Price, 15 cents each; four for 50 cents.

Single Varieties

This type, although long ignored and in many places almost forgotten, has been recently shown in fine form, and now no exhibition will be complete without its Classes for Singles. For bush plants, decorative pot plants and table decorations, the Singles excel, and when well grown they displace and command more admiration than any of the large flowering types.

ANNA. Pure white, belongs to the true single section, having but one row of petals. Fine for pot plants.

ARLEE. A rich, golden amber, of dwarf, sturdy growth, excellent either as a pot plant or for cutting.

CATHERINE LIVINGSTON. A pleasing shade of lavender pink, strong growth, producing fine sprays.

ITASKA. The incurving petals give the flowers the appearance of pond lilies, and are a most pleasing shade of pink.

LILY GODFREY. Medium size, soft, rosy lavender.

LITTLE BARBEE. Clear canary yellow, exceptionally large sprays of medium sized flowers.

HILDA WELLS. Beautiful Tuscan red, with a light yellow tinting at base of petals.

MERSTHAM JEWEL. Rosy terra cotta, with golden points and center; a glorious variety; arrangement on the spray cannot be improved.

MRS. ALICE BROWNSON HUSTON. Daybreak pink; quilled in center, very fine.

MRS. J. A. PETERSON. White, medium sized flower, with petals half way quilled. Quilled part of petal delicate pink.

PETER PAN. Fawn color. Has sprays of flowers about nine inches long, with twelve or fifteen dainty star-like flowers on the stem, all opening at the same time, forming a natural lady's spray.

RED LIGHT. This belongs to the large flowering section. Pleasing shade of crimson.

SYLVIA SLADE. The showiest of all singles, the flower like a giant Cineraria; color, rosy-garnet, with broad white ring around the disc.

Price, 10 cents each; three for 25 cents.

Amateur Collection of Chrysanthemums 20 for \$1.00

We are prepared to grow Chrysanthemums in immense quantities, and we propose to offer them at a price that should induce everybody to grow them. Don't imagine that because they are cheap, the plants must be small and worthless, and of very inferior varieties. Everybody knows that it costs just as much to give a poor variety as one of the best; and that it is to the best interest of everybody concerned that we send out only choice varieties. There will not be a poor one in the entire Collection.

Vestal's "Ideal" Set of Five Glorious Chrysanthemums

See Colored Plate on Opposite Page.

An up-to-day collection of Five New Large Flowering Japanese Chrysanthemums, selected for their freedom of blooming. Large flowers, strong growth, and diversity of color.

Price, 15 cents each. The set of Five for 50 cents.

Bronze Giant

The Chrysanthemum has now attained the pinnacle of fame as an autumn flower and is nationally popular in this country. We place at the head of this list the Bronze Giant, which in every way is a veritable giant—developing to enormous size. For collections this flower is invaluable. Grand for cutting, and very lasting in water. The color varies from bronze to old gold, and the petals stand out straight, showing two colors to the very best advantage. Without doubt one of the most distinct and unique Chrysanthemums. No collection is complete without it.

Glen Cove

There is nothing like it in color, which is a deep reddish salmon upon opening, and gradually changes to a soft shrimp pink when fully finished. The flowers are of the largest size, and take on great depth. A decided and new shade that is very beautiful. The beauty of this Chrysanthemum can not be justly described in language. It must be seen in all its glorious splendor to be appreciated. Perfection in grace and coloring and a wonderful achievement in floriculture. A marvelous flower of superb magnificence.

Indian Maid

The largest and most beautiful dark crimson scarlet yet introduced; looks like crimson velvet; the very shade so much desired in Chrysanthemums. Flowers of immense size. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat, with drooping outer petals, which gives it a very graceful appearance.

W. A. Reed

The grandest thing in its color ever seen in a Chrysanthemum, crimson with golden reverse, making a peculiarly striking flower, so closely incurved as to show the crimson only on a few of the lower drooping petals. An immense flower that can be grown to the very largest size.

October Frost

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms. Immense incurving petals of the purest white. From a flat, incurved form it gradually changes into a perfect ball of snow. Foliage handsome. We do not think it possesses a single fault.

Ornamental Ferns

WHITMANII. We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. THE NEWPORT PARLOR FERN. (Nephrolepis Scotti). It is a condensed form of the Boston Fern with characteristics not evident in the parent, an average plant in an 8-inch pot having 200 fronds. Phoenix Roebelini

A new Palm is always interesting, but when the new-comer is easily the most graceful and withal the hardiest, it is little short of sensational. The horticultural world has enthused over this beautiful Palm. It has the grace, symmetry and lightness of Cocos Weddelliana, but is more robust in growth, and has tenfold the foliage of that fine variety. It is essentially different from it, foliage from the ground up gracefully recurved and spreading in habit. Most popular for house decoration. In describing we can not do justice to this beautiful Palm. Price, 50 cents each; large plants, \$1.00 each.

Perennial Climbing Vines

We are all beginning to realize what wonderful grace and beauty well-placed vines may add to home and garden—that besides porch and window draperies and soft wall-covers, vines will quickly make for us enchanting pergolas and shady arbors that are more enjoyable in summer than conventional apartments.

The Cardinal Climber

(*Ipomoea Quamoclit Hybrida.*)

No plant in our trial ground the past season was so much admired. We consider it the most beautiful, brilliant and distinct annual climber introduced in many years. It is the result of a cross between *Ipomoea Quamoclit*, the Cypress Vine and *Ipomoea Coccinea*, or Star Glory. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful, deeply lacinated foliage and literally covered with a blaze of circular fiery cardinal-red flowers from mid-July till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of 5 to 7 blooms each. We feel sure that it will become one of the good annual climbers of the future. Like other *Ipomoeas* it delights in a warm, sunny situation and good soil. Price, 15 cents each; 4 for 50 cents.

Parrot's Feather

An aquatic hanging plant is a novelty indeed, and we have it to perfection in this dainty little jewel. Its long, trailing stems are clothed with whorls of the most exquisite foliage as finely cut as the leaves of the cypress vine and much more delicate. Planted in a watertight hanging basket, so water can be kept standing on the surface, it will trail finely. Price, 10 cents each.

Madeira Vine

(*Mignonette Vine.*)

The glossy, waxy leaves of this dainty vine from the Andes makes it, perhaps, the most liked of all climbers. The leaves are light green above and rosy chocolate underneath; flowers white and deliciously fragrant. Grows well in garden or pots, hanging baskets or vases. In fall take up the roots, if in garden, and keep warm and dry over winter. Give tubers same care as Dahlias. Price, 5 cents each; 40 cents per dozen.

Honeysuckles

OLD AND NEW.

GOLDEN JAPANESE. Flowers creamy white, fragrant, scarcely more beautiful than the golden netted leaves. Price, strong plants, 15 cents each; \$1.50 per dozen.

HALL'S. Even in cold climates this vine holds its leaves until January; in the South it is evergreen. It is the freest growing and blooming sort of all, showing fragrant flowers of buff and white from May until December in our latitude. Price, strong plants, 15 cents each; \$1.50 per dozen.

SCARLET TRUMPET. The most beautiful and brilliant of all Honeysuckles is also the hardest and most vigorous. The stems often twine about second story windows, wreathing them in early spring with large, inodorous clusters of long, tubular scarlet flowers. The foliage is bluish green, the berries scarlet. Also called Coral Honeysuckle. Price, strong plants, 15 cents each; \$1.50 per dozen.

For porch decoration without too much shade they have no superior. Price, 30 cents each.

Hardy Vines

Jasmine

YELLOW. (*Jasminum Nudiflorum*). This is entirely evergreen in the South and much farther north than is commonly supposed. The stems, too, are a dark shining green, and during mild winter months, regardless of the calendar, its sunshiny yellow flowers appear thickly along the branches. Each petiole carries three small leaves similar to those of the Boxwood. "Climbing Evergreen Clover" some of our "natives" call it—not inaptly. Price, strong plants, 15 cents each; \$1.50 per dozen.

JASMINE PRIMULINUM. A new species; foliage small and pretty flowers yellow, as large as a half dollar, opening flat, scented, blooming in long sprays in winter, and keeping when cut, in water, indefinitely. An exceedingly valuable small shrub. Price, 25 cents each.

Climbing Euonymus

By some authorities this is considered a better evergreen vine than even the English Ivy. For the first few years it clings closely to walls in a mat of small, glossy leaves, but when established it becomes more shrubby in character, throws out strong branches and has broad, glossy leaves similar to those of the Japan Euonymus shrub. Fertile plants have many pink fruits with showy scarlet arils amid these handsome leaves, and their effect is fine beyond description. It will grow 20 or more feet high. Price, good strong plants, 15 cents each; two for 25 cents; \$1.50 per dozen.

Kudzu Vine

This is the most remarkable rapid growing perennial vine in existence and is unparalleled for ornament and shade. The leaves are dark green in color and of a soft woolly texture. A new hardy climber; will run 30 to 40 feet in a season, and quickly cover porches, fences, tall trees, etc. Bears rich purple flowers in handsome clusters. Strong roots, 25 cents each; larger size, 35 cents each.

Boston Ivy

A beautiful hardy climbing plant, of Japanese origin. This is one of the finest climbers we know of for covering walls, as it clings firmly to the smoothest surface, covering it smoothly with overlapping leaves, which form a perfect mass of foliage. Prices, strong plants, 15 cents each; four for 50 cents.

Boston Ivy.

Hardy Ornamental Shrubs

It is our aim to produce everything in Flowering Shrubbery that is useful, hardy, and worthy of cultivation. Flowering Shrubs take pre-dominance in all plants for landscape decoration, be the grounds large enough to be termed an "estate," or be they only a home garden or "yard." Without shrubbery no landscape effects can be created; but with a judicious selection, properly planted, any property can be enhanced in beauty and value. Properly arranged shrubbery does not encroach on the lawn; it rather gives it an appearance of increased size. As screens to hide fences or unsightly objects, and for giving an air of privacy, its use is indispensable. If care is given in selecting, flowers can be had from early spring until late fall.

Beautiful surroundings is essential in the building of a home and really should be considered first. The beauties of nature are all that can be asked. Nothing can be compared in the way of ornamentation to artistic grouping of carefully selected hardy shrubs. The list following, in the estimation of the best landscape gardeners, is one of the finest collections offered for general decorative purposes.

It is a true shrub, begins to bloom in early summer and continues into the fall, so that it is practically everblooming. Seen in the yard or on the lawn while in full bloom, it is truly an imposing spectacle, the prodigal display of white affording such a charming contrast with the green of its surroundings. The period of bloom being late and prolonged for two or three months at a season when other flowers are scarce and inferior, serves to impart a degree of summer freshness to the landscape. Vestal's Famous Fruit Trees

The trees offered are young and thrifty and will make a very rapid growth and bear quickly. When fruit trees or shrubs are received before they can be planted they may be safely kept a reasonable length of time by having the roots packed in boxes of moist soil and stored in a cool cellar or shed. It is important to order fruit early, that they may be planted out before the foliage starts. Varieties in order of ripening.

Orders for Fruit Trees received too late for Spring Planting, will be held and shipped the following Fall.

Apples

The Apple has long been recognized as "Our National Fruit." Moore's Early.

Hardy Grapes

Plant in rows six feet apart and eight feet apart in the row. Dig holes sufficiently large to amply accommodate the roots of the vine and use only fine surface soil in filling in, mixing with it a little ground bone. Cut back one year vines to two eyes, placing the lower one beneath the surface; cut back two year vines to three or four eyes, putting two or three eyes below the surface. Spread the roots out after trimming them; place the stock of the vine at one side of the hole and fill up with soil, pressing down firmly with the feet. Set a stake by the side of the stock, to which the vine should be kept tied, which will be all the support needed for two years. Keep old wood trimmed off, growing fruit on new canes. Prune to admit the sun and air freely.

Everyone should have a few grape vines in the home garden. They require very little cultivation and returns are quick and abundant. They can be trained over fences, trellises or doorways, and thus be ornamental as well as useful.

Our Plants make it Possible to gather Delicious Berries like these in your own Garden.

The Vestal Collection of Choice Garden Fruits

Our Choice Garden Fruits take very little room, come into bearing quickly, and will repay their trifling cost many times over in delicious fruit, besides the pleasure and satisfaction of having them of your own. The varieties offered below are the very finest sorts, carefully selected, and it will pay you to give them a liberal trial this year.

The Finest Strawberries

Lovers of Strawberries consider them the most delicious of earth's products, and it is certain that the big, juicy firm, rich red berries offered in this collection are fit for a royal feast. After long trials and careful comparison we have selected from all the known sorts the varieties offered below as the most desirable and luscious Strawberries for the home or market garden. They are all uniformly large, handsome, rich colored and delightfully flavored. They make an ideal collection for the family garden. Price, postpaid, by mail, doz., 35c; 50 for 75c; 100 for \$1.25. By express, not prepaid, 100 for \$1; 500 for \$3.00; 1000 for \$5.

BUBACH (Imperfect). A splendid variety of the very largest size; the quantity of the fruit produced is simply enormous. The ground about the plants is often literally covered with the large, luscious fruits. Shape round, slightly flattened; flesh medium firm, meaty, fine grained and quality good. The color is a rich bright red, with waxy surface. It ripens evenly, and the color extends clear through the fruit. The foliage is a dark, waxy green, with spreading habit; leaf and fruit stems short. We have tried this variety on sand loam, on clay and on black soil, and each test gave very satisfactory results. Late. Exceptionally good for home use or market, but perhaps too large for a shipper.

SENATOR DUNLAP (Perfect). Many large growers pronounce this "the greatest all round variety ever introduced." It is deservedly one of the most popular of all Strawberries. It is wonderfully productive. The fruits are very large and of handsome, regular shape and uniform size; the color is a rich, deep red, with glossy surface and prominent golden yellow seeds. The meat is a rich red, exceedingly juicy, sweet and delicious.

EXCELSIOR (Perfect). This new variety promises to be one of the very best extra earlies yet introduced—it ripens three to four days earlier than Michel's Early and is a vigorous, healthy grower—unusually productive for so early a sort—outyielding other standard earlies two to one, while the fruit averages large, is very handsome and firm.

GANDY (Perfect). One of the best late strawberries ever introduced. Strictly fancy. The fruits are uniformly large and perfect in form and firm. Color, bright crimson and as glossy as if varnished. It has a large bright green calyx, which greatly adds to the beauty. This is one of the latest and best flavored berries we have. The quality is all that can be desired, giving out a most delicious aroma suggestive of both strawberries and peaches. It ripens from late to very late. The plants are very vigorous growers. In well fertilized soil this berry is a big yielder.

TEXAS (Perfect). A grand berry, one that comes nearer being an ever-bearing berry than all of your so-called ever-bearers. We have seen them nine times in ten make a second crop six weeks to two months after all other fruit was gone, continuing to fruit for six weeks at a time, and this the second crop. You will need at least a hundred of them if you like late berries. Their spring crop ripens in what we call the second early class. Their second crop, with me, ripens in June and July; in the North, where your season is late, they would ripen in September and October. Try them and see how they will do with you.

EVENING STAR (Perfect). In this variety you will find a good, all-around berry, we much prefer them to the Gandy, as they are twice as productive with us as this berry. They begin to ripen only a few days later and the fruit is much the same as the Gandy. In fact, you would find it hard to tell the two apart if you had them laying side by side. Plants are large and hold fruit well off the ground, which is another good advantage of this berry.

HAVERLAND (Imperfect). Grand market berry; should be planted with Clyde or some other good pollinizer. Is one of the handsomest berries of which we have any knowledge. Round and full at the stem end, gradually tapering to a blunt point. The bright yellow seeds are prominent and add to its attractive appearance. Size is very large. Color bright red on the upper side and a slightly lighter shade on under side.

BRANDYWINE (Imperfect). The berries of the "Brandywine" are magnificent and of immense size—very firm, solid and shaped for so large a berry. In general it is broadly heart-shaped without neck, occasionally fruits will be found shaped as if two berries were joined together; flesh red to the core, of delightful aroma, rich, juicy and luscious. The seeds are but slightly imbedded which adds to its firmness. The color is of a rich, dark glossy scarlet. Colors uniformly all over, no white blotches nor green tips; its large green calyx greatly adds to the attractiveness of the fruit.

Senator Dunlap.
